For the period April 15, 2008 to April 15, 2011 (previous three years),

1. The Wild Goose facility has not had any violations of any air pollution laws;
2. There have been no notices of violations issued for the Wild Goose facility during the period; and
3. Wild Goose did receive a variance 7/7/2010 due to questionable TNMNEHC lab results, retested and cleared results, BCAQMD accepted new results and source test reports. Variance was closed.
