

## **SUPPLEMENTAL INFORMATION: DRY CLEANING**

Submit the following information with your application for an Authority to Construct:

1. FACILITY LOCATION DRAWING - The drawing or sketch submitted must show the following:
  - a. The building and property involved.
  - b. Identify property lines and adjoining properties. Identify all adjoining properties within 0.25 miles of the facility.
  
2. DESCRIPTION OF DRY CLEANING EQUIPMENT
  - a. Please supply a location drawing of the dry cleaning unit and all associated equipment.
  - b. Include equipment model number, serial number, capacity, number of, horsepower, BTU rating, equipment air ducting system, and manufacturer specifications.
  
3. SOLVENT AND DISPOSAL
  - a. Identify solvent used and submit solvent material safety data sheet (MSDS).
  - b. Identify solvent supplier - company name and phone number.
  - c. Identify company used for hazardous waste disposal - company name, address, phone, and contact name.
  
4. OPERATION TIME AND WEIGHT
  - a. Estimate equipment operation time - hrs/day; hrs/wk; days/yr
  - b. Estimate average weight of dry cleaning processed - lbs/day; lbs/wk; lbs/yr
  - c. Estimate the total pounds of material cleaned per load and the total gallons of solvent used.

Note: Any person who owns or operates perchloroethylene dry cleaning equipment shall comply with Title 17 California Code of Regulation, Section 93109 - Perchloroethylene Airborne Toxic Control Measure for Emissions of Perchloroethylene from Dry Cleaning Operations.

After an Authority to Construct is granted for any equipment, deviations from the approved plans are not permissible without first securing additional approval for the changes from the Air Pollution Control Officer.

Further information or clarification concerning permits can be obtained by calling (530) 891-2882.
