Draft Minutes of the Butte County Air Quality Management District Governing Board of Directors Meeting of September 24, 2026

Members Present:

Bill Connelly	Supervisor, District 1
Peter Durfee	Supervisor, District 2
Tami Ritter	Supervisor, District 3
Tod Kimmelshue	Supervisor, District 4
Bryce Goldstein	Councilmember, Chico
Bruce Johnson	Councilmember, Gridley
Ron Lassonde	Councilmember, Paradise

Members Absent:

Doug Teeter	Supervisor, District 5
Eric Smith	Vice Mayor, Oroville
Anita Wilks	Councilmember, Biggs

Staff Present:

Stephen Ertle	Air Pollution Control Officer (APCO)
Patrick Lucey	Assistant Air Pollution Control Officer (AAPCO)
Aleah Ing	Administrative Services Officer, (ASO)
Kelly Towne	Clerk of the Board

Staff Remote:

Riley Peacock	Air Quality Engineer, II
Samuel Nassie	Air Quality Compliance Officer II

Others Present:

Henri Castro	SDRMA
--------------	-------

Public comments are accepted before and during the meeting by emailing ktowne@bcaqmd.org.

1. Call to Order and Roll Call.

Chair Tami Ritter called the meeting to order at 10:26 a.m. at the BCAG Board Room, 326 Huss Drive, Suite 100, Chico, California.

2. Additions and Deletions to the Consent or Regular Agenda.

No additions or deletions.

Agenda Item 3.1

3. Consent Agenda.

- 3.1** Minutes of August 27, 2026, Meeting of the Board of Directors.
- 3.2** Activity Report on Butte County Air Quality Management District Activities.
- 3.3** Financial Status Report for Fiscal Year 2026-27.
- 3.4** Status Report on Calendar of Events.
- 3.5** Status Report on Communications.

ACTION REQUESTED: Approve Consent Agenda Items.

Board comments: None.

Public comments: None.

A motion was made by Supervisor Kimmelshue and seconded by Supervisor Durfee to approve the Consent Agenda Items.

AYES: Supervisor Ritter, Supervisor Durfee(second), Supervisor Connelly, Supervisor Kimmelshue(motion), Councilmember Goldstein, Councilmember Lassonde and Vice Mayor Johnson.

NOES: None.

ABSTAIN: None.

ABSENT: Supervisor Teeter, Councilmember Wilks, and Vice Mayor Smith.

ITEMS FOR ACTION

4. Items removed from the Consent Agenda for Board consideration and actions.

No items were removed from the Consent Agenda.

5. PERS 2025 Actuarial Report.

ACTION REQUESTED:

Receive report and accept CalPERS Annual Valuation reports ending June 30, 2025, and the CalPERS CEPPT Trust Account Summary report as of June 30, 2025.

The PERS 2025 Actuarial Report was presented by Aleah Ing, Administrative Services Officer.

Board comments: Discussion ensued.

Public comments: None.

A motion was made by Supervisor Connelly and seconded by Supervisor Durfee to receive and accept CalPERS Annual Valuation reports ending June 30, 2025, and the CalPERS CEPPT Trust Account Summary report as of June 30, 2025.

AYES: Supervisor Ritter, Supervisor Durfee(second), Supervisor Connelly(motion), Supervisor Kimmelshue, Councilmember Goldstein, Councilmember Lassonde and Vice Mayor Johnson.

NOES: None.

ABSTAIN: None.

ABSENT: Supervisor Teeter, Councilmember Wilks, and Vice Mayor Smith.

6. Public Hearing - Rule 509 Subject Research Fees and Hourly Rate.

ACTION REQUESTED:

Following a Public Hearing, accept comments and approve the proposed amendments to Rule 509 - Subject Research Fees and Hourly Rate and the Resolution of Adoption.

Rule 509 Subject Research Fees and Hourly Rate report was presented by Stephen Ertle, APCO.

Open Public Hearing: 10:45 a.m.

Close Public Hearing: 10:48 a.m.

Board comments: Discussion ensued.

Public comments: None.

A motion was made by Supervisor Kimmelshue and seconded by Councilmember Lassonde to approve the proposed amendments to Rule 509 - Subject Research Fees and Hourly Rate and the Resolution of Adoption.

AYES: Supervisor Ritter, Supervisor Durfee, Supervisor Connelly, Supervisor Kimmelshue(motion), Councilmember Goldstein, Councilmember Lassonde(second), and Vice Mayor Johnson.

NOES: None.

ABSTAIN: None.

ABSENT: Supervisor Teeter, Councilmember Wilks, and Vice Mayor Smith.

7. FY 2026-2027 Budget Amendments.

ACTION REQUESTED:

Approve proposed budget transfers and amendments.

The FY2026-2027 Budget Amendments report was presented by Aleah Ing, Administrative Services Officer.

Board comments: None.

Public comments: None.

A motion was made by Councilmember Goldstein and seconded by Supervisor Durfee to Approve the FY 2026-2027 Budget Amendments.

AYES: Supervisor Ritter, Supervisor Durfee(second), Supervisor Connelly, Supervisor Kimmelshue, Councilmember Goldstein(motion), Councilmember Lassonde, and Vice Mayor Johnson.

NOES: None.

ABSTAIN: None.

ABSENT: Supervisor Teeter, Councilmember Wilks, and Vice Mayor Smith.

ITEMS FOR INFORMATION

8. **2026 Special District Risk Management Association – Excellence in Safety Award – Worker's Compensation.**

ACTION REQUESTED:

Receive presentation and file the 2026 SDRMA Excellence in Safety Award.

The 2026 Special District Risk Management Association Excellence in Safety Award was presented by Stephen Ertle, APCO and Henri Castro, SDRMA.

Board comments: Discussion ensued.

Public comments: None.

9. **APCO Report.**

None. This Item is provided for information and discussion.

Board comments: Discussion ensued.

Public comments: None.

9. **Other Business.** No other business was presented.

10. **Public Comment Period.** Any person may address the Board of Directors on any matter within the jurisdiction of the Board that is not on the agenda for this meeting. Any person may address the Board on an agenda item when that time is called. The Chair requests that each person addressing the Board limits their presentation to five (5) minutes.

11. **Adjourn to Closed Session.**

There was no Closed Session.

13. **The meeting was adjourned at 11:02 a.m. The next Board of Directors Meeting is scheduled for October 22, 2026 at 10:00 a.m. at the Butte County Association of Governments Board Room, 326 Huss Drive, Suite 100, Chico, California.**

Stephen Ertle, Air Pollution Control Officer
Butte County Air Quality Management District

I hereby attest that this is a true and correct copy of the action taken by the Butte County Air Quality Management District Board of Directors on September 24, 2026.

ATTEST: _____
Kelly Towne, Clerk of the Governing Board

Attachment 1

APCO Notes

September 2026 APCO Notes

Butte County Air Quality Management District

FEDERAL

- **Prescribed Fire / Exceptional Events:** EPA is emphasizing use of the Exceptional Events Rule for qualifying prescribed-fire impacts and has released tools intended to streamline demonstrations, which may make it easier for districts to address prescribed-fire-influenced monitoring data in NAAQS determinations.

STATE

- **Community Air Protection Funding:** The 2026-27 State Budget provides \$150 million General Fund for the Community Air Protection Program (AB 617), creating potential funding opportunities that may benefit local air districts.
- **GGRF / Cap-and-Invest:** The State Budget allocates approximately \$3.1 billion from the Greenhouse Gas Reduction Fund and includes additional funding for zero-emission vehicle incentives and forest-health-related programs.
- **“Leno Law” SB 1392:** Governor Newsom signed into law the Bill that expands exemptions to smog requirements for certain classic cars.

LOCAL

- **2027 EPA Sampling Schedule:** EPA has issued the 2027 NAAQS sampling calendar for state and local air programs; the District should incorporate the applicable 3-day, 6-day, or 12-day schedule into monitoring operations and planning.

CAPCOA

- **SWEEG Exceptional Events Workshop - November 3:** The South West Exceptional Events Group workshop will include CAPCOA discussion of prescribed fire, EPA exceptional-events tools and updates, and a local/state/tribal/EPA roundtable; in-person and virtual attendance are available.

Re: **Financial Status Report Fiscal Year 2026-2027**

ISSUE:

Financial Status Report.

ACTION REQUESTED:

Accept and file report.

DISCUSSION:

The attached financial reports summarize the District's revenue and expense in the Budget vs Actual report for year to date through the month of September and the Statement of Financial Position as of September 30, 2026.

This report is for 25% of the budget year, with Revenue at 22.29% of budget and Operating expenditures at 34.9% of budget. The percentage is slightly higher than the YTD percentage due to annual payments due at the beginning of the year for PERS pension liability, website hosting and ADA compliance contracts, insurance, and vehicle maintenance.

The recognition of grant implementation for the 1st quarter will be provided at the next Regular Governing Board Meeting.

Re: AB2588 Toxics Hot Spots Annual Report

ISSUE:

Status of the District's AB 2588 Air Toxics "Hot Spots" Reporting Program and updates to Emissions Inventory and Guidelines (EICG) Regulation and Facility Status List.

ACTION REQUESTED:

Following a Public Hearing, approve the report.

DISCUSSION:

The attached report summarizes the status of facilities subject to the requirements of the AB 2588 Air Toxics "Hot Spots" Information and Assessment Act (AB 2588) pursuant to the requirements of the California Health and Safety Code Section 44300, et. seq. Each year, the District evaluates new facilities' toxic emissions to calculate a prioritization score to determine the level of further evaluation required. Facilities are high priority when their prioritization score is calculated over 100 and intermediate when their calculated prioritization scores are between one (1) and one hundred (100). Facilities are exempt when they have a Prioritization score of less than one (1) and have the potential to emit less than ten (10) tons per year with no toxic significance.

Facilities are also assigned a Facility Category based on the type of equipment that is permitted. There are six total categories: five Industry Wide Source categories that have streamlined processes for prioritization and the Core category which the District evaluates facilities individually according to the Office of Environmental Health hazard Assessment (OEHA) guidance. The Industry Wide Source Categories are: Internal Combustion Engines, Gasoline Dispensing Facilities, Auto Body Shops, Dry Cleaning Facilities, and Print Shops. Core facilities include all remaining facilities that do not fall into any of the Industry Wide Source categories.

Agenda Item 5

Fourteen (14) new facilities were evaluated in 2025, with two (2) in the Core category and the remaining twelve (12) are in the Industry Wide Source-Internal Combustion Engine category. Prioritization scores calculated for all new facilities determined that they are exempt from further evaluation in the program.

The new facilities are: Enloe Cancer Center, RG 24 – Big Bend Remote 0001, Paradise USD – Paradise Junior High, Paradise USD – Paradise Ridge Elementary School, Paradise USD – Paradise High School, Paradise USD – Ridgeview High School, Sierra Central Credit Union, American Towers LLC, Butte County Jail – North Facility, Thermalito UESD: Plumas Avenue School, Thermalito UESD: Poplar Avenue Elementary School, Thermalito UESD: Nelson Avenue Middle School, Thermalito UESD: Sierra Avenue Elementary School, and Pleasant Valley Pool.

The report summarizes the Quadrennial Update covering emission years 2020-2024. The Quadrennial Update is completed concurrently with the annual report and reviews toxic emission inventories from High and Intermediate priority facilities to determine if further evaluation, such as a Health Risk Assessment, is needed. The primary trigger for further evaluation is an increase in a facility's prioritization level from intermediate to high. Other factors that are considered for requiring further evaluation include, but are not limited to, revised OEHHA guidance, operational or process modifications, or increased throughput activity leading to elevated toxic emissions. During this update, intermediate and high priority facilities were reviewed and found that no further evaluation was required. The next Quadrennial Update will be required in 2029 covering emission years 2025-2028.

Attachment:
2026 AB2588 Annual Report.

2026 ANNUAL REPORT AB 2588 AIR TOXICS "HOT SPOTS" PROGRAM

September 22, 2026

Preface

The Air Toxics "Hot Spots" Information and Assessment Act of 1987 (AB 2588) is a State of California public right-to-know law requiring local air quality management and air pollution control districts to collect information about the location, type, and quantity of toxic compounds emitted into the air from specified local businesses and industry. The AB 2588 Program Annual Report is published to provide the public with information regarding the AB 2588 Program of the Butte County Air Quality Management District (District). The enabling statutes (California Health & Safety Code (HSC) Sections 44300-44394) require the California Air Resources Board (CARB) and local air districts to implement the "Hot Spots" Program. This report describes the current reporting and evaluation status for facilities being tracked under this program. This annual report is required by California HSC Section 44363.

INTRODUCTION

The goals of the AB 2588 Program are to collect emission data, to identify facilities having localized impacts, to ascertain health risks, and to notify nearby residents of significant risks.

The Air Toxics "Hot Spots" Information and Assessment Act of 1987 (AB 2588) requires certain emitters of airborne toxic compounds to submit toxic emissions inventory reports and updates. Facilities meeting Board-specified criteria must also complete health risk assessments. AB 2588 further requires the District to prepare an annual report summarizing progress on the implementation of the program.

HSC Section 44363 requires that the District Board conduct a public hearing concerning the subject report which must include information on the following:

- 1) The prioritization of facilities for the purpose of performing a health risk assessment for air emissions of listed substances;
- 2) The ranking and identification of facilities according to the degree of cancer risk posed to surrounding receptors;
- 3) The identification of facilities which expose individuals or populations to any non-cancer health risks; and
- 4) The status of development of control measures to reduce emissions of toxic air contaminants, if any.

AIR TOXICS “HOT SPOTS” PROGRAM

The AB 2588 Program (HSC Sections 44300 et seq.) established a process to compile an inventory of air toxics emissions from specified facility categories in California and to assess the potential risks to public health as a result of exposure to those emissions. AB 2588 also requires that the public be notified of facilities whose emissions pose significant health risks. AB 2588 specifies activities that the CARB, the Office of Environmental Health Hazard Assessment (OEHHA), and the districts must carry out to implement the Act. CARB is required to adopt a fee recovery regulation to assess fees on facilities subject to the requirements to ensure that costs to implement and administer the AB 2588 Program. (HSC Section 44380.)

This report addresses the statutory requirements of the AB 2588 Program. This report does not seek to address other toxics-related issues handled by staff. For example, the District also addresses air toxics exposures during permitting of new and modified sources of air pollutants. The source permitting process may require issuance of a public notice if the proposed source releases hazardous air pollutants within 1,000 feet of a school. The District also implements State Airborne Toxic Control Measures (ATCMs) and federal National Emission Standards for Hazardous Air Pollutants (NESHAPs). ATCM and NESHAP requirements are usually implemented through a source permit or equipment registration. During this reporting year, the District has not developed control measures in addition to those required by an ATCM or NESHAP.

PROGRAM CATEGORIES OF DISTRICT FACILITIES

The District began implementing the AB 2588 Program in 1989. Facilities are categorized based on their reporting status in the program. Unless the District is performing an industry-wide survey for a facility category, facilities subject to the AB 2588 Program are required to file an emissions inventory plan and report with the local air district. The District reviews and approves the plan and reports, and based on the reported emissions, performs a prioritization evaluation (develops a prioritization score for the facility).

If the prioritization score indicates further evaluation is necessary, the facility is required to perform a health risk assessment. If the results from the health risk assessment indicate a potential significant risk to the public, the facility is required to notify the public exposed to the emissions. A facility subject to the public notification requirement then may need to develop a risk reduction plan to lower the emissions below significance levels. At this time, there are no facilities identified in the District as posing a significant risk to the public. As an alternative to this process, the facility or the District can conduct a health risk assessment as part of a permitting action, provided the results identify any significant risk to the public.

After complying with the initial reporting requirements, based on the prioritization scores or health risk assessment results, facilities may be required to submit update reports every four years. The following is a summary of the current facility update categories as identified in the Facilities List in Appendix B. A list of category definitions can be found at the beginning of the facility list in Appendix B.

Graphic Representation of the AB 2588 Process

AB 2588 Process

Facility Count for 2025

Facility Category	High	Intermediate	Exempt	Total
Core	1	26	55	82
Exempt			135	135
Industry-Wide Surveys:				
-Autobody Shops		3	42	45
-Dry Cleaners			4	4
-Gasoline Dispensing		7	87	94
-Diesel Internal Combustion Engine	1	4	189	194
-Print Shop			1	1
Not Yet Prioritized			0	0
Totals:	2	40	513	555

District staff annually review facility status as indicated on the list in Appendix B of this report. The above facility count may vary each year due to closures and /or addition of new facilities.

Quadrennial Update Summary:

Facilities that have a high or intermediate ranking are required to submit updates every four years (called “Quadrennial Update”) to allow the District to evaluate their current status. The prior

Quadrennial Update in 2025, covering emission years 2021-2024, the District found that no facilities were required to conduct a Health Risk Assessment based on updated prioritization scores. The next update will be required in 2029 covering emission years 2025-2028.

HEALTH RISK ASSESSMENTS

Since the last annual report, the District completed six (6) health risk assessments (HRA) during the permitting process. HRAs evaluate the health risk to the public due to toxic air emission from new or modified facilities. The health risks were below significance levels and the requested permit was issued by the District. These health risk assessments also satisfy the AB 2588 Program requirement for evaluating toxic air emissions. HRAs during the coming year will be conducted as warranted.

District staff continue to use the AERMOD dispersion modeling software and Health Assessment and Reporting Program Ver. 2. (HARP2) tools to evaluate source risk. The results from HARP2 are used to determine potential risk from a project for a specific site or location.

DEVELOPMENT OF CONTROL MEASURES

During this reporting period, the District has continued to work with affected sources to comply with the U.S. Environmental Protection Agency National Emission Standards for Hazardous Air Pollutants (NESHAPs) at area sources. By State law, NESHAPs that do not have a corresponding Airborne Toxic Control Measure (ATCM) become ATCMs for the State. Area sources are smaller sources such as auto body shops, metal fabricators, paint manufacturers and various other spray coating operations.

NESHAPs, Subpart HHHHHH is a federal Area Source regulation to reduce toxic air contaminants, called Hazardous Air Pollutants or HAPs, from spray coating in the auto body industry and other miscellaneous metal coating operations. The District staff continue to work with new and existing spray coating sources to ensure compliance with the federal regulations.

NESHAPs, Subpart XXXXXX is a federal Area Source regulation to reduce HAPs from spray coating in the heavy construction manufacturing industry. The District has identified this regulation is applicable to one source. Applicable requirements have been incorporated into the source's permit.

NESHAPs, Subpart BBBB is a federal Area Source regulation to reduce HAPs from bulk gasoline terminals and distribution centers. The District has identified this regulation is applicable to one source. Applicable requirements have been incorporated into the source's permit.

NESHAPs, Subpart ZZZZ is a federal Area Source regulation to reduce HAPs from stationary reciprocating internal combustion engines. This regulation affects both spark-ignited (gasoline, natural gas and LPG) and compression ignition (diesel) engines. Most commercial, institutional, and residential emergency engines are exempt from this regulation; however, larger industrial and agricultural engines are subject to control requirements to reduce HAPs from the incomplete combustion of fuel. Regulatory requirements (primarily maintenance provisions) of this federal

regulation have been incorporated into facility permits. At this time, the District has not identified any sources that require additional controls beyond what is currently permitted to comply with the regulations. Existing, large natural gas engines require an annual source test to demonstrate compliance and the subject engines have been or are scheduled to be tested annually.

AB 2588 PROGRAM FEES

Program costs may be recovered by assessing a fee to subject facilities pursuant to District Rule 506, *Air Toxics “Hot Spots” (AB 2588) Fees*. The District is required to pay a fee to the State to cover CARB’s costs. State fees are assessed by the District as a straight pass-through to the facility. The District is also authorized by Rule 506 to assess fees to cover local costs.

CARB’s AB 2588 assessment of fees for Fiscal Year 2025-2026 was \$134.00. This amount was determined by the following:

SFPP, L.P.’s Chico Terminal = \$134.00 (Category F-Complex)

State costs are allocated among the districts using a formula considering the number of facilities in each of the program categories and resource indices and are based on facility data received from the districts before September 1, 2026.

UPDATE TO OEHHA RISK ASSESSMENT GUIDELINES

The passage of the Children’s Health Protection Act of 1999 (SB 25, Stats. 1999) required Office of Environmental Health Hazard Assessment (OEHHA) to re-evaluate the risk assessment methodologies to ensure infants and children are explicitly addressed in assessing risk. In the last decade, advances in science have shown that early-life exposures to air toxics contribute to an increased lifetime risk of developing cancer, or other adverse health effects, compared to exposures that occur in adulthood. On March 6, 2015, OEHHA adopted revised guidelines to address this greater sensitivity and incorporates the most recent data on childhood and adult exposure to air toxics. At their July 23, 2015 meeting, the Air Resources Board (working with CAPCOA) adopted Risk Management Guidance implementing the new guidelines.

At their December 2015 meeting, the District Board adopted amendments to the existing health risk assessment evaluation criteria incorporating the new OEHHA guidelines. At the December 2016 meeting, the District Board adopted revised Prioritization Guidelines based on the guidance from CAPCOA. The District will be reviewing and recommending updates to the other existing District AB2588 program guidance as necessary. Although emissions levels and actual exposure have not changed, the new methodology calculations will show a 1.5 to 3 times increase in inhalation health risk due to the new awareness of increased sensitivity in infants and children.

Staff from districts across the State through CAPCOA have been working to update guidance and procedures to incorporate the new risk assessment methods. The Public Notification Guidelines have been in review and are being finalized.

REVIEW OF NATA DATA

Every three years, the US Environmental Protection Agency uses federal, state, and local toxic inventories to compile a comprehensive evaluation of toxic risk in a report called the National-Scale Air Toxics Assessment (NATA). During this report period, District staff has reviewed the preliminary information to help identify data errors and provide updated information to EPA on the District's toxic sources. Staff spent considerable time and effort working with EPA and CARB staff to correct source information that was a relic of EPA's database system.

TOXICS EMISSION INVENTORY

The AB2588 Emission Inventory Criteria and Guidelines requires districts to review and update toxic emissions inventory data at least every three years. District staff recently reviewed and updated the toxic inventory for applicable sources in conjunction with the fee category reporting and the 2025 emissions inventory reporting.

APPENDIX A

Public Notice

NOTICE OF PUBLIC HEARING

The Governing Board of the Butte County Air Quality Management District (District) will hold a Public Hearing on October 22, 2026, at 10:00 a.m. at the Butte County Association of Governments Board Room, 326 Huss Drive, Suite 100, Chico, CA to consider the Air Toxics “Hot Spots” Information and Assessment Act of 1987 annual report of program activities. The annual report includes a summary of health risk assessments and identifies and assesses toxic air emissions from facilities within the District.

The annual report may be reviewed at the District office at the address below or on the District website: bcaqmd.org. For additional information please contact Riley Peacock at (530) 332-9400, ext. 107. Written comments on the annual report must be submitted by October 21, 2026 to: Board Clerk, Butte County Air Quality Management District, 629 Entler Avenue, Suite 15, Chico, CA 95928.

Dated: September 22, 2026
STEPHEN ERTLE
AIR POLLUTION CONTROL OFFICER

APPENDIX B

2025 Facility Status List

2026 AB 2588 "Hot Spots" Annual Report Facility Status

Key / Legend

Facility Name	Name of the facility
Facility Category	Facility categorization based on criteria pollutant emission quantities or source type similarity
Core	A source that is required to file the "Core" inventory reporting forms
IWS-ABS	Industry Wide Survey - Auto Body Shops
IWS-DCF	Industry Wide Survey - Dry Cleaning Facilities
IWS-GDF	Industry Wide Survey - Gas Dispensing Facilities
IWS-ICE	Industry Wide Survey - Diesel Internal Combustion Engines
IWS-PS	Industry Wide Survey - Print Shops
FAC ID	Facility Identification Number
Update Category	Ranking of a facility for inventory updates based on their prioritization score and/or risk assessment
High	A facility with a prioritization score greater than or equal to 10 (Subject to Quad Year Reporting - Next report due in 2028)
Intermediate	A facility with a prioritization score less than 10 and greater than or equal to 1 (Subject to Quad Year Reporting - Next report due in 2028)
Exempt	A facility with a prioritization score less than 1, emits less than 10 tons per year and no toxic significance.
Prioritization Score	The first step in a conservative risk representation for a facility.
1st value	Prioritization score for carcinogenic toxics
2nd value	Prioritization score for non-carcinogenic toxics
Health Risk Assessment	An evaluation of a facility's toxic air pollution by analyzing pollution control equipment and atmospheric modeling to predict health risks.
1st value	The first value is for potential cancer risk in terms of chances per one million population.
2nd value	The second value is for the hazard index associated with acute or short term health effects caused by the pollutants.
3rd value	The third value is for the hazard index associated with chronic or long-term non-cancer health effects caused by the pollutants.
Source Type	The type of source for a given facility.

Air Pollution Control Officer

PATRICK LUCEY
Assistant Air Pollution Control Officer

Date of Release: October 15, 2026

Board Consideration: October 22, 2026

To: Butte County Air Quality Management District Board of Directors

From: Stephen Ertle, Air Pollution Control Officer

Staff Contact: Jason Mandly, Senior Air Quality Planner

Re: Biannual Air Quality Report

ISSUE:

Report on air quality conditions in Butte County through September 2026. Focus will be on the summer ozone and wildfire season.

ACTION REQUESTED:

None. This item is provided for information and discussion.

DISCUSSION:

This report includes information on air quality conditions for the spring and summer months of 2026 with a focus on wildfire impacts and ozone pollution.

Wildfire Smoke Impacts:

Wildfires are a significant source of fine particulate matter (PM2.5) that can negatively impact respiratory and cardiovascular health, especially at higher concentrations and for sensitive populations. There were no significant smoke impacts in Butte County from wildfires this summer. The foothills of Butte County, including the Paradise-Clark Road monitoring location, experienced drift smoke from the Gann Fire in Calaveras County on August 5, 2026, which led to Air Quality Index values reaching the higher end of the Moderate range.

Ozone (Summer-time Smog) Impacts:

Agenda Item 6

Ozone has historically been the primary pollutant of concern during the summer in Butte County outside of wildfire impacts. Ozone is formed when combustion emissions and VOCs from regional sources combine with sunlight in the creation of photochemical smog. Elevated ozone concentrations can irritate the lungs and aggravate respiratory conditions.

The District has not exceeded the state or federal 8-hour ozone standard (0.070 parts per million) so far in 2026. This continues a long-term trend of improving ozone concentrations in Butte County. The American Lung Association named the Chico, CA Metro Area on its list of “Cleanest U.S. Cities for Ozone Air Pollution” in their State of the Air Report for 2026. This designation was based on data collected from 2022 to 2024.

Despite improving ozone concentrations in Butte County, the California Air Resources Board plans to downgrade Butte County from “Nonattainment-Transitional” to “Nonattainment” for the State 8-hour ozone standard due to incomplete data at the Chico-East Avenue Air Monitoring Station during the summer of 2025. This is not expected to impact District programs.

The table below shows how Butte County compares to other California counties with the latest 8-hour ozone design value (a calculated multi-year average that is used to measure against the National Ambient Air Quality Standard of 0.070 parts per million). Areas in the San Joaquin Valley and Southern California are still experiencing ozone concentrations well above the federal standard.

Attachment:
None.

-Board of Director's Meeting -

Summarized below are acronyms commonly used in Board folders and accompanying staff reports.

A/C or ATC	Authority to Construct Permit
AB	Assembly Bill
AERR	U.S. EPA Air Emissions Reporting Requirements
AMOS	Automatic Meteorological Observation Stations
AP-42	EPA technical reference specifying specific Air Pollutant Emission Factors
APCD	Air Pollution Control District
APCO	Air Pollution Control Officer
AQMD	Air Quality Management District
ATCM	Airborne Toxic Control Measure
AQI	Air Quality Index
BACT	Best Available Control Technology
BAM	Beta Attenuation Monitor (records hourly ambient particulate data)
BCAG	Butte County Association of Governments
BCAQMD	Butte County Air Quality Management District
BCC	Sacramento Valley Basinwide Air Pollution Control Council
BOS	Board of Supervisors
CAA	Clean Air Act
CAAQS	California Ambient Air Quality Standards
CAP	Climate Action Plan
Cal-EPA	California Environmental Protection Agency
CAPCOA	California Air Pollution Control Officers Association
CARB	California Air Resources Board
CARPA	California Air Response Planning Alliance
CBYL	Check Before You Light
Cd	Cadmium
CEQA	California Environmental Quality Act
CI	Compression Ignition
CO	Chemical symbol for carbon monoxide
CO ₂	Chemical symbol for carbon dioxide
CPA	Certified Public Accountant
CPI	Consumer Price Index
CSAC	California State Association of Counties
CTR	Criteria Pollutant and Toxic Emissions Reporting Regulation
CUA	Chico Urbanized Area
DMV	Department of Motor Vehicles
DTSC	California Department of Toxic Substance Control
EG	Emission Guidelines
EICG	Emission Inventory Criteria and Guideline Regulation
EI	Emission Inventory
Emfac	Emission Factor Computer Model
EPA	Environmental Protection Agency (Federal)
ERC	Emission Reduction Credit
ESA	Endangered Species Act
EVR	Enhanced Vapor Recovery
FIP	Federal Implementation Plan
FRM	Federal Reference Method
FY	Fiscal Year (June 30-July 1, unless otherwise stated)
GASB	Governmental Accounting Standards Board
GDF	Gasoline Dispensing Facilities
GFOA	Governmental Finance Officers Association
GHG	Greenhouse Gases
GWP	Global Warming Potential
HAP	Hazardous Air Pollutants
